

**GEYSER HOUSING WELDING MACHINE**

This machine is specially developed by **AXESS** for geyser manufacturing. It can easily weld, no matter the height and the diameter of the geyser.

**Features**

- \* 7" HMI-PLC Controls with multi programs for different sizes.
- \* Servo motor for smooth movement.
- \* Already proven 2800W, 15 KHz ultrasonic system for welding.

**CAP TRAP SPIN WELDING MACHINE**

**AXESS** developed this machine for Tub Cap Trap used in washing machines and toilet water systems. We have already supplied to companies like Samsung, LG, IFB and Supreme Plastic.

**Special Features**

- \* Analog controls including 3 Timers, Counter, Auto/ manual
- \* Clutch-Brake device 40W, \* Motor 5 KW
- \* Pneumatic Fixture, \* Hydraulic cushion device to hold part

**SERVO-CONTROLLED ROTARY TABLE WELDER**

**Technical Specification of AW1528-GH**

Dimension L x W x H	1480mm x 760mm x 1820mm
Weight	550 Kg (Approx)
Input Voltage & Power	220V, 4 KW
Ultrasonic Power	2800W, 15KHz
Max Geyser Height	up to 800mm
Max Geyser Dia	up to 600mm
Controls	PLC and HMI 7"
Air pressure req.	up to 6 Kg/cm square
Productivity	8-15 operation/ minute
Auto/Manual	Both operation
