

# ASA SERIES ULTRASONIC PLASTIC WELDER

**AXESS**  
PLASTIC WELDING MACHINES

PLASTIC WELDING MACHINES

Since 2002, **AXESS** is a manufacturing company involved in manufacturing, sales and service of plastic welding machines like Ultrasonic Plastic Welding, Spin Welding, Hot-Plate & Impulse Plastic Welding Machines etc.

**AXESS** is a team of technically experienced, aggressive, enthusiastic and ambitious people and has established it's position as a prominent brand in the Plastic Welding Machine manufacturing industry, and has succeeded in achieving gradual growth every financial year. **AXESS** has techno commercial partnership with world renowned company **BENSONIC™** PI Shan Automatic Company Limited, TAIWAN since 2004 and **M P Sonic** (Cnzhnbo), China since 2018. We are their authorised agent for marketing, sale of their products in India.

### Special Features of ASA Series

**Multiple Protection Circuit:** Machines are of robust design and durable for high output and heavy load.

**Heavy Duty Pneumatic Driving System:** Equipped with high speed solenoid for operating pressure ranging from 0 to 9 bar.

**Precise Timer:** Three set of 1/100 sec timers (only ASA series) can give precise result.

**Easy & Heavy Adjustment tools:** Equipped with a spherical transducer base and adjustment free horizontal ring for easy adjustment of fixture with horn.

**Robust MS Frame & Base:** Specially designed robust Base with thick MS sheet metal plate and "C" shaped folded MS sheet column for heavy robustness. The base bed is with additional aluminum Plate with T-slot design for fast tool change.

### Additional features of ASD series

**LCD Display Control:** ASD series machines are controlled by LCD Touch control coloured HMI, like timers, power, welding mode, counter and history.

**Digital Generator:** ASD series machines can have integrated Digital Generator or separate Analog generator just like in ASA series

### Range & Technical Specification

Particular	ASA2015/ASD2015	ASA1526/ASD1526
Output/Frequency	1500W, 20KHz	2600W, 15KHz
Weight	95Kg	98Kg
Dimensions (mm)	440 x 690 x 1500	440 x 690 x 1500
Welding Area	150mm	250mm

BUSINESS PARTNER

**BENSONIC**  
ULTRASONIC PLASTIC WELDER  
SINCE 1996 TAIWAN
